About Us

As ROTA, our Animal Feed Supplement adventure dates back to 1982. Our company started the first licking salt production of the sector in 1982 by the elder of the family and has had a good market share in the Turkish market over the years. In 2016, with the third generation taking over the management, ROTA adopted the motto of "New Product, New Production and New Market" and started working with its professional team in this direction.

Our P&D Studies

ROTA, which carries out important studies especially in the fields of R&D and P&D, produces vitamins, minerals, molasses-based licking buckets, licking stones and premixes for farm animals. Our company, which has a large share in the Turkish market in line with customer satisfaction, commissioned its second production facility in 2023 in order to provide better and faster service to its customers. ROTA, which stands out from its competitors with its production capacity, is also one step ahead of its other competitors with its quality, nutritious and wide product range.

ROTA, which is one of the leading companies in the Turkish market, also sells in the European, Middle Eastern and African markets with the advantage of being located in a port city like Izmir. It continues its work within the framework of unconditional customer satisfaction and trust for all its business partners.

As ROTA, our aim is to support healthy breeding, higher efficiency and quality production by ensuring that animals can survive without getting sick as a leading company in the sector.

Premix

Rota GN Pro

Benefits:
Rota GN pro reduces the risk getting sick by oviding the vitamins and mal your animals need ths ak to its rich conte It contributes to at and milk yield and quality vegular use. It helps to imove the nail andather structo o your animals has to the biotin contained in it. It inceases the utilization feed and has an appetizinoperty.

ROTA GN PRO		
Compounds	Quantity	(mg,UI,%10kg)
Vitamins		
Vitamin A (E672)	500000	IU
Vitamin D3 (E671)	100000	IU
Vitamin E (3a700)	75	mg
Vitamin B1	15	mg

Premix

Rota Min

Benefits:

Rota min helps to meet the vitamin and mineral substance needs of ruminant animals. It increases the utilization of feed, contributes to growth and development.

Improves the quality of meat and milk with regular use. Minimizes diseases caused by a lack of mineral substances.It helps in adjusting the acid base balance of the body.

It increases appetite thanks to the aroma in its content.

ROTA MIN		
Compounds	Quantity	(mg,UI,%10kg)
Vitamins		
Vitamin A (E672)	1000000	IU
Vitamin D3 (E671)	400000	IU

Premix

Rota Sacc

Benefits:

Rota Sacc is used to meet the vitamin and mineral substance needs of ruminant animals. Rota sacc contributes to the increase in live weight in animals helps to increase meat and milk yield with regular use. It prevents yield losses due to diseases and helps to protect animals from diseases.

It is also the thin binder in its content. It contributes to easing fertility supporting the digestive and immune system with regular use.

ROTA SACC		
Compounds	Quantity	(mg,UI,%10kg)

Premix

Rota Broiler

Benefits:
Rota-Broiler contributes to the development of growth in your poultry with the vitamins and minerals it contains. Rota Boiler increases meat and egg quality thanks to its rich content and minimizes low yield. It minimizes the risk of your animals getting sick with regular use.

ROTA Broiler		
Compounds	Quantity	(mg,UI,%10kg)
Vitamins		
Vitamin A (E672)	7500000	IU
Vitamin D3 (E671)	1000000	IU
Vitamin E (3a700)	10000	mg
Vitamin B1	1500	mg
Biotin	150	mg
Vitamin K3	2000	mg
Vitamin B2	2000	mg
Vitamin B6	2500	mg
Vitamin B12	10	mg
Pantothenic Acid	10000	mg
Trace Elements		
Manganese(Mn) (E5 Manganese sulphate)	75000	mg
Zinc (Zn) (E6 Zinc oxide)	75000	mg
Copper (Cu) (E4 Copper sulphate)	8000	mg
Iron (Fe) (E1 Iron sulphate)	40000	mg
Iron (Fe) (E172 Iron oxide)	200	mg
Selenium (Se) (E8 Sodium Selenite)	100	mg
Compounds		
Ca-D-Pantothante	10000	mg

Premix

Rota Buff

Benefits:
Rota-buff helps to increase the population of beneficial organisms in the digestive tract of ruminant animals, regulating the intestinal balance thanks to the substances contained in Rota-buf. With regular use, it contributes to increased appetite and milk yield of your animals. It is helpful in preventing diseases caused by rumen health with regular use.

ROTA BUFF		
Compounds	Quantity	(mg,UI,%10kg)
Elements		
Magnesium (Mg) (Magnesium oxide)	500000	mg
Supports		
Sodium Bicarbonate	1600000	mg
Microorganism		
Live Yeast (Sacc. Cerevisia)	20*10 ¹⁰	cfu
Inactive Yeast	10000	mg

Premix

Rota Egg

Benefits:
Rota-Eggy contributes to the development of growth in your poultry and helps to increase egg laying performance with the vitamins and minerals it contains. Thanks to its rich content, Rota-Eggy minimizes the risk of your animals getting sick with regular use and reduces optimum diseases on your animals.

ROTA EGGY		
Compounds	Quantity	(mg,UI,%10kg)
Vitamins		
Vitamin A (E672)	10000000	IU
Vitamin D3 (E671)	2000000	IU

Selenium (Se) (E8 Sodium Selenite)	40	mg
Compounds		
Folic Acid	500	mg
Ca-D-Pantothante	8000	mg

Premix

Rota GN 450

Benefits:
Rota-GN450 is used to meet the needs of vitamin and mineral substances of ruminants. It increases the utilization of feed. Rota-GN450 supports the regulation of digestion thanks to its sodium bicarbonate and magnexide content. It helps to regulate body functions. It contributes to meat and milk yield with regular use. It has appetizing properties thanks to the aroma in its content.
